HORRIBLE MURDER.

A Man's Heart cut in two with an Ax.

A horrible murder was com- mitted last Thursday night, (24th inst.) in Vinton township, near Eagle Furnace. The murderer's name is David Gregory—he killing Matthew Dalton, by striking him with an ax in the left breast, sinking the ax about five inches deep, cutting the heart in two. But little is known concerning the motives or circumstances of the murder, except mere flying rumors. It appears that Dal- ton had went to Gregory's shanty, while the latter had gone out to get some chickens. He returned in a short time, finding Dalton in his tenement near the woman whom he claims to be his wife. We un- derstand that Gregory claims that Dalton had made improper advances to his wife, and al- so claims that Dalton had a stone tied in a handkerchief, and had struck at him with it; but as to these statements we are not reliably informed. An inquest was held over the dead body by Seth Sharp, Justice of the Peace. Constable E. Rad- cliff arrested and brought Gregory to town with the as- sistance of Mr Sharp, securely tied on a horse. The prisoner started to run when first seen by the constable, when a few shots from a revolver brought him to a stand. The ax was al- so brought to town. The ax as well as the handle was cov- ered profusely with blood. Gregory was a wood chopper at the furnace and claims to be from Virginia. The ax was new and had never been used and was freshly ground. He was taken before Henry Payne, J. P. last Saturday morning, waiv- ed an examination and was re- manded to jail to await his trial by the Court of Common Pleas.

Federal Troops Needed in McArthur, Ohio.

Judging from the late scenes of lawlessness and disorder, we believe the strong arm of mili- tary power should be invoked. Either the Governor or the President should send troops immediately. We do not know whose business it is to apply for troops—but we know that law is violated and officers de- fied. Therefore, we, as citizens, having an equal interest in the public weal, and having great confidence in President Grant's ability to suppress riots, insur- rections or rebellions, and as this paper goes to Washington City, therefore we will address a few lines to the President, through this paper:

To His Excellency Ulysses S. Grant, President of the United States of America:

In accordance with the pro- visions of the Constitution of the United States which se- cures to each State a Republi- can form of Government, and as we have no government, nothing but anarchy, we there- fore must ask that you provide in adequate manner in estab- lishing the same.

The laws are openly violated and the offenders go unpunish- ed, the officers of the law are successfully resisted by violence and therefore unable to execute the same. You are therefore requested to send such force of troops, as in your judgment the exigencies of the case may require, forthwith.

This request is from the law- abiding citizens of which there are still a few left in McArthur, Ohio.

MRS. FANNY Sisson is suffer- ing very much and is very low with dropsy at the residence of her son, George Sisson. She was tapped last week and near- ly two buckets of water taken from her. The water is again accumulating and she can no longer recover.

We understand that Bowen is publishing a paper at Ham- den. We have not seen it. Bowen won't send it to us, be- cause he is mad at us because, we told all about his erysipha- las scrape in Jackson.

A LAMP chimney may be made almost indestructible by putting it over the fire in a vessel of cold water and let- ting remain until the water boils. It will be found that boiling toughens in this case. Give it a trial.
